

Randhi Putra

Lead Software Engineer — Fullstack, AI Products & Cloud | TypeScript · React · Go · GCP

randhi.pro hey@randhi.pro linkedin.com/in/randhipp github.com/randhipp Greater Surabaya, ID · Remote

EXPERIENCE

Lead Software Engineer Dec 2025 – Present
Blooming Surveys — UK, Remote

- End-to-end ownership of a real-estate surveyor reporting platform; bridging product & engineering
- Leading team, release engineering, and system architecture decisions

Leadership · Release Engineering · Fullstack

Senior Full Stack Developer May 2024 – Present
Thought&Function — London, UK, Remote

- Ted's Health:** Redesigned checkout & prescription payment flows; automated order processing pipeline
- Little Journey:** Rewrote backend with NestJS + Zenstack for multi-tenancy; built admin dashboard (NextJS); integrated Sanity CMS with custom workflows
- Equiyd:** Real-time GraphQL notification system; feature development across the full Turborepo stack

TypeScript · React · Next.js · NestJS · GraphQL · Prisma · Sanity · PostgreSQL · Turborepo

Founder & Product Lead — MoneyTalk May 2025 – Jan 2026
AI Voice-First Finance Tracker — Jombang, ID

- Built AI-powered mobile app using speech-to-text and OCR for automatic expense logging
- Integrated AI analyzer to categorize spending patterns from natural-language input
- Solo founder — product direction, UX, engineering; launched on Play Store

React Native · Expo · AI/ML · Speech-to-Text · OCR · Solo Founder

Senior Software Engineer Feb 2022 – May 2024
Flip — Indonesia, Remote

- Migrated **400,000+ users** between e-money providers with near-zero downtime
- Led full GCP migration for E-Money service; integrated SNAP (Bank Indonesia open API standard)
- Built offline top-up channel via 20,000+ Indomaret retail locations nationwide
- Optimized DB queries; built BigQuery + Cloud Scheduler reporting pipeline; CI/CD pipelines

Go · PHP · Java · GCP · BigQuery · PostgreSQL · CI/CD · Fintech · SNAP BI

Founder — Wafvel Jul 2020 – May 2024
WhatsApp Business API SaaS — East Java, ID

- Built REST API notification gateway with webhooks, auto-reply, and multi-admin chat
- Solo founder for 4 years — dev, sales, and support. Stack: Laravel + Node.js on GCP

Laravel · Node.js · GCP · REST APIs · SaaS

Software Engineer — GetCraft Jan 2021 – Jan 2022

- Built APIs with Node.js & Go on GCP Kubernetes; maintained React + Next.js frontend

Node.js · Go · React · Next.js · MongoDB · GCP · Kubernetes

KEY PROJECTS

Flip E-Money Migration — 2022
Orchestrated migration of 400k+ users between e-money providers. Strategy, load testing, rollout with minimal downtime.

Little Journey — Thought&Function, 2024-Present
Multi-tenant backend rewrite (NestJS + Zenstack), admin dashboard (NextJS), Sanity CMS integration.

MoneyTalk — 2025-2026
AI-powered voice-first finance tracker with speech-to-text & receipt OCR. React Native + Expo. Live on Play Store.

PROFILE

Senior fullstack engineer and founder — 8+ years building products from zero to scale. Blend of deep engineering and product ownership. Built fintech systems handling 400k+ users, launched two SaaS products, led AI product development. Remote-first. TypeScript, React, Go, GCP.

SKILLS

Languages
TypeScript, Go, PHP, SQL

Frontend
React, Next.js, GraphQL, Tailwind, Sanity CMS

Backend
Node.js, NestJS, Express, Laravel, REST, tRPC, Prisma, Zenstack

Cloud & Infra
GCP, Cloud Run, BigQuery, CI/CD, Docker, Turborepo, Kubernetes

Data
PostgreSQL, MongoDB, Redis, MySQL

AI & Automation
LLM integration, AI agents, STT, OCR, prompt engineering, AI product design

EDUCATION

Universitas Terbuka — BBA, Business 2024 – 2028
Admin & Mgmt

CERTIFICATIONS

AI Agents Fundamentals — Hugging Face (2025)
Networking in Google Cloud — Coursera (2021)
GCP Fundamentals: Core Infra — Coursera (2021)

LANGUAGES

Bahasa Indonesia (Native) · English (Professional)

COMMUNITY

Founder, JDCC — Regional dev community, Jombang (2025-2026)
